Cellular Shades

The enduring simplicity of cellular shades, combined with their outstanding insulating capabilities, make them ideal for virtually any setting. The patented single and double honeycomb fabrics block drafts, keeping rooms warmer in winter and cooler in summer. As they boost energy efficiency, they also effectively control light, offering a range of opacity levels from light filtering to blackout. Choose from traditional and cord-free hardware, including the ComforTrack™ Energy Saving Sidetrack System and SlumberShades™ - the ultimate blackout shade.

Limitless Options

There is a cellular hardware system to meet every need: cordless, top down-bottom up, room darkening sidetracks, motorization and more.

Cellular Shades with Debut™ Blossom Light Filtering fabric in color Feather with Cordless Top Down-Bottom Up in Oil Rubbed Bronze.

Color Lux Cellular Shades

The Color Lux Linen Weave Collection is the most exciting color program in the custom window treatment world. With 800 colors available in Color Lux, you can now easily find the right color to express your style without compromise. Color Lux is available with Linen Weave cellular fabric in both light filtering and room darkening. Defend against splatters with Scotchgard™ Protector. 3M Scotchgard Protector keeps your shades looking newer, fresher and cleaner longer. Color Lux features four beautiful color collections designed with guidance from world class colorist Kate Smith. The 12 colors in each collection coordinate with each other for perfect color harmony. For more color options, look in the Color Lux color deck.

Perfect Coordination

“The Color Lux color deck is a great and easy tool for anyone to use when matching or coordinating decor throughout your home!” - Kate Smith, President of Sensational Color

Sheer Horizontal Shadings

Sheer horizontal shadings gently soften the incoming sun. The fabric vanes are suspended between dual sheer layers, and tilt to adjust privacy, control light and minimize UV damage to interior furnishings. The exclusive Omni-View Hardware System does what no other sheer hardware can – raise the fabric up to 24” with the vanes open – while allowing for a wide range of shading variations. Enjoy the view with cord loop, radio frequency motorization or our innovative cordless PowerTouch option.

See and Believe

The exclusive Omni-View System provides versatile view-through options simply by pulling the cord loop or pushing a button.

Sheer Shadings with 3" Aura Room Darkening Vanes in color Black Aura with Cord Loop in Onyx Black.

Soft Tones Sheer Shadings

The striking and uniquely shaped 5 ½-inch vanes of Soft Tones provide exceptional view-through while transforming harsh daylight even when opened. When the vanes are tilted closed, Soft Tones lets you control the privacy and light at every level. When fully raised, they disappear into the head rail. Choose from an array of colors and hardware options that let you enjoy the unmistakable modern elegance and amazing light control of Soft Tones.

Unique Light Diffusion
Incorporating opaque and sheer front fabric vanes together, Soft Tone Shadings offer a beautiful, unique way to diffuse light.

Soft Tones Sheer Shadings in color Soft White with Cord Loop hardware.

Roman, Roller and Panel Track Shades

Roman, roller and panel track shades showcase the finest decorator fabrics in solids and patterns, as well as high performance solar screens. Find the shade that is right for each window – a streamlined roller, classic Roman or sliding panel track design. Roller shades offer modern accents including metallic hardware, bottom bandings and decorative pulls. Roman shades feature traditional tear drop or flat panel folds, while panel track shades cover large windows and doors, even serving as room dividers. Place different shades within a room to unify the entire space.

Cutting Edge

The fabric collection include solids, prints and woven selections in today's most sought-after colors.
